

## Uputstvo za povezivanje Android uređaja na e-mail server

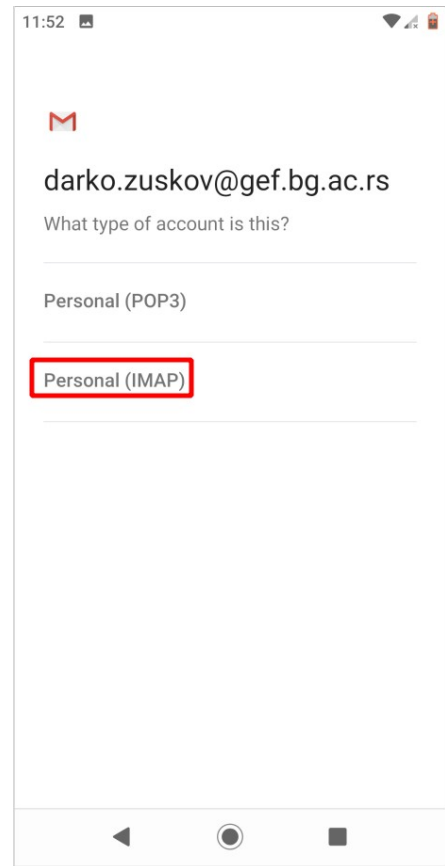

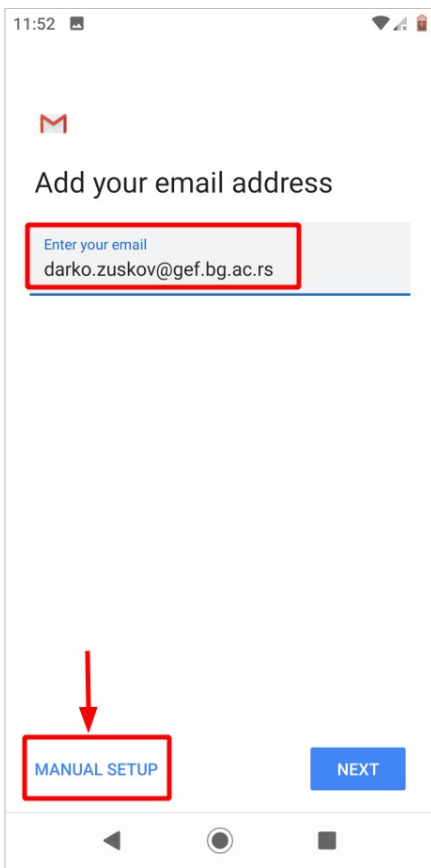

Postupak povezivanja prikazan je po koracima. Potrebno je ući u podešavanja telefona („Settings“ ikonica) i odatle izabrati opciju za dodavanje korisničkih naloga („Accounts“ stavka):

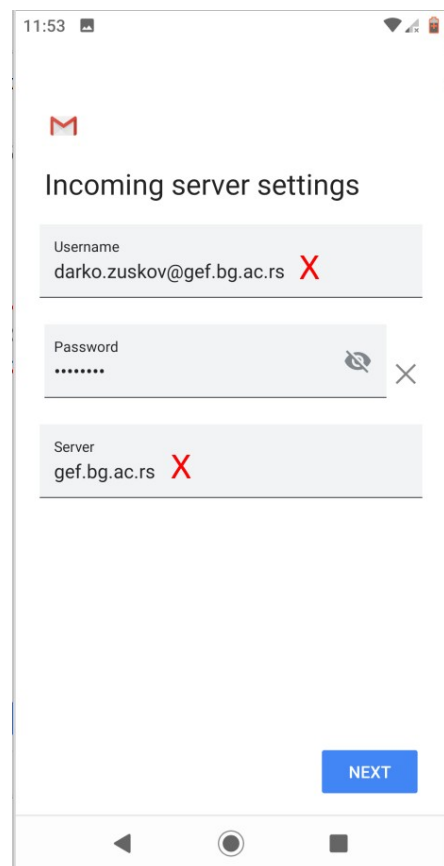

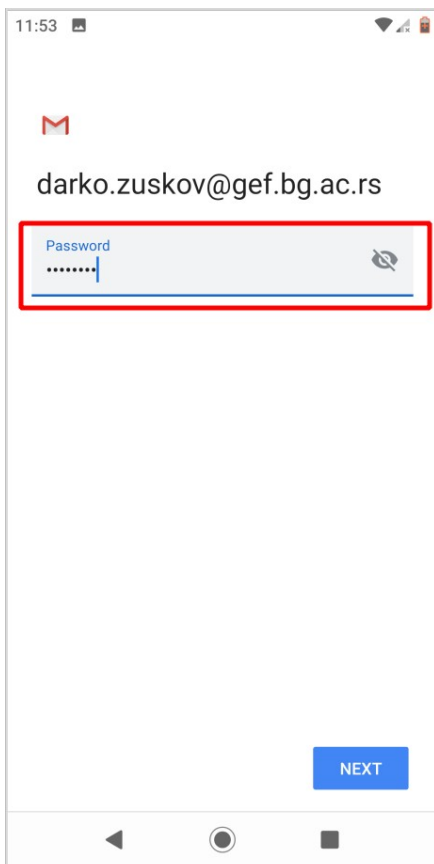

Kao tip naloga koji želimo da kreiramo izabrati „Personal (IMAP)“:

Nakon unošenja pune e-mail adrese izabrati opciju za ručno podešavanje („Manual Setup“) i potvrditi da je u pitanju lični IMAP nalog:

Nakon unošenja korisničke lozinke, telefon će ponuditi podešavanja koja nisu u skladu sa onim što se očekuje na serveru:

Ukloniti domen iz korisničkog imena (@gef.bg.ac.rs) i kao ime servera navesti **mail.gef.bg.ac.rs**.

11:53

**M**

### Incoming server settings

Username  
darko.zuskov

Password  
.....

Server  
mail.gef.bg.ac.rs

NEXT

This screenshot shows the 'Incoming server settings' screen in an email client. The time is 11:53. The Gmail logo is at the top. The title is 'Incoming server settings'. There are three input fields: 'Username' with the value 'darko.zuskov', 'Password' with masked characters and a visibility toggle, and 'Server' with the value 'mail.gef.bg.ac.rs'. A blue 'NEXT' button is at the bottom right.

Slično je potrebno uraditi i sa podešavanjima za odlazni (engl. *outgoing*) server:

11:54

**M**

### Outgoing server settings

Require signin

Username  
darko.zuskov

Password  
.....

SMTP server  
gef.bg.ac.rs X

NEXT

This screenshot shows the 'Outgoing server settings' screen with an error. The time is 11:54. The Gmail logo is at the top. The title is 'Outgoing server settings'. There is a toggle for 'Require signin' which is turned on. There are three input fields: 'Username' with 'darko.zuskov', 'Password' with masked characters, and 'SMTP server' with 'gef.bg.ac.rs' and a red 'X' error icon. A blue 'NEXT' button is at the bottom right.

11:54

**M**

### Outgoing server settings

Require signin

Username  
darko.zuskov

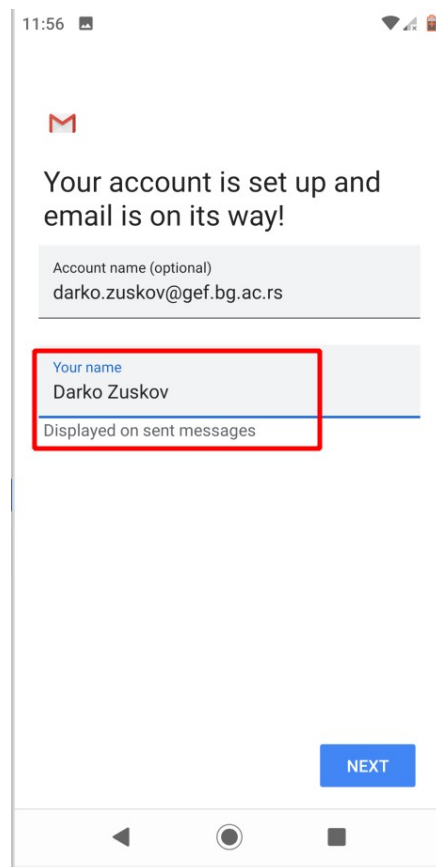

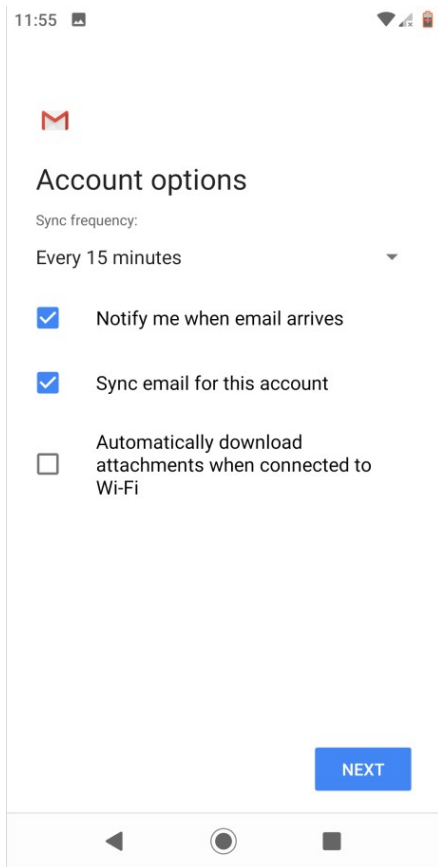

Password  
.....

SMTP server  
mail.gef.bg.ac.rs

NEXT

This screenshot shows the 'Outgoing server settings' screen with the correct server name. The time is 11:54. The Gmail logo is at the top. The title is 'Outgoing server settings'. There is a toggle for 'Require signin' which is turned on. There are three input fields: 'Username' with 'darko.zuskov', 'Password' with masked characters, and 'SMTP server' with 'mail.gef.bg.ac.rs'. A blue 'NEXT' button is at the bottom right.

Nakon toga preostaju još samo finalna podešavanja:

Vaš nalog je sada spreman za korišćenje i možete mu pristupiti iz „Mail“ aplikacije:
